

Tax and social security matters demand close attention and tailor-made solutions.

Corporate and individual taxpayers face increasing complexity in their tax matters. Advice that makes a difference goes beyond tax law and reflects the underlying, individual circumstances of each client.

We assist our clients in structuring their business and managing their private wealth while remaining mindful of tax and social security implications. We offer comprehensive, practical and efficient solutions and guidance on all matters of tax and social security law.

Our clients range from individuals and family businesses to multinational companies from various sectors.

Practical and strategic advice

We work closely together with our colleagues from other areas of law to offer our clients comprehensive solutions. We also have close ties with experts in other jurisdictions and an excellent working relationship with Swiss tax and social security authorities. This enables us to offer strategic and pragmatic tax advice on all issues our clients face in their private and professional environment, their day to day business as well as in respect of specific transactions.
